

## THE WASP FAMILY PLAN ©

## FEATURES

- **A 20% discount off our monthly rates**
- **Regular scheduled maintenance of each trap**
- **Full service report after each visit.**

**Purchasing a Wasp Family Plan © can save a substantial amount of money and ensure that your home and property have protection during the entire European Wasp Season.**

## THE WASP FAMILY PLAN ©

**A 20% saving on the estimate of installation and monthly replenishment of appropriate bait and traps until the start of Hibernation.**

**A COST-EFFECTIVE SOLUTION FOR PROTECTING YOUR FAMILY AND PROPERTY DURING THE ENTIRE EUROPEAN WASP SEASON.**

## HERE IS HOW IT WORKS:

Get together with any of your family members who live on property within 5 kilometres of you and request a Wasp Family Plan © from us.

We will perform a Site survey of the properties which are part of the The Wasp Family Plan © to determine how many traps you and your families will need, and the optimal location to install them. We then determine a schedule to maintain appropriate bait and traps for the entire Wasp Season.

The Site Survey will allow us to produce a written quote with discount.

Once our quote is accepted we will book a maintenance schedule for your properties along with reminders.

Billing will be done to each family after every scheduled maintenance.

If you are a current customer, we don't need to do the Site Survey as we already have your details , but we will need to do a Site Survey of you the properties who are participating in the Wasp Family Plan © with you

**Treatment of Live Nests are charged seperately**

**The Wasp Family Plan © can not be combined with any other discounts which we offer**
